An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Applicant's election of claims 46-64 in the reply filed on 10/10/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Cancel Claims 65-77, 91-110 due to non-elected claims.

Response to Amendment

This Office Action is in response to Amendment filed on 10/10/06.

Claim 46 has been amended.

Claims 46-64 are pending in the present application at the time of examination.

Remarks and amendment of Applicants have been considered.

Reason for allowance

Claims 46-64 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed limitations having a method of forming a thin plate comprising the steps loading a substrate into the main chamber through at least one loading subsidiary chamber and unloading the substrate from the main chamber through at least one unloading subsidiary chamber, of using a vacuum to set the pressure in the loading chamber less than atmospheric pressure and substantially the same as the main chamber, and using a vacuum to set the pressure in the unloading subsidiary chamber less than atmospheric pressure and substantially the same as the pressure in the main chamber and introducing inert gas into the unloading subsidiary chamber and along other limitations cited in independent claim 46.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
